

Spencer 756 Head immobilization device

The 756 cervical immobilization device has been developed from EMS professionals and bioengineers to obtain the most efficient head immobilization. It is designed for multiple applications.

If used with Nec Loc collar, it can offer a total warranty of cervical immobilization during transport.

Easy and rapid to use, it is assembled in a matter seconds.

- Dual anchor head strap provides superior immobilization
- High density, polyethylene construction provides rigid support
- Accommodates adult and pediatric patients
- Waterproof and lightweight (210 gr.)
- Closed cell, non-absorbent foam padding cushions the patient's head
- Radiolucent
