

**SPENCER ROCK**

Spine board

The Spencer Rock Spinal board is built from high density cross linked polyethylene - this avoids splintering and cracking. The surface is impervious to body fluids and petroleum products being easy to keep clean. The Rock, represents today's answer to total immobilisation for casualties.

Rock features include:

- Seamless moulding to eliminate ingress of fluid.;
- Foam filled core for flotation.;
- Firm surface for CPR & Immobilisation;
- Compact dimensions for easy manoeuvring, 44.5 x 181.5 cms tapering to 31.5 cms;
- Thickness 6 cms;
- Provision of positions for cervical collars or Spencer Head Immobilisers;
- Convex underside to allow EMT's easy lifting access;
- Compatibility with standard 'navy rescue' basket stretcher.

Rock is radio compatible, important for spinal injury casualties.

Standard colour Orange -Yellow, Red & Green available for minimum orders of 30 units.

Weight 8.2 kgs, Recommended Load capacity 171 kgs.
